The
Trinidad & Tobago
Insurance Institute*

BACKGROUND

The Trinidad and Tobago Insurance Institute (TTII) is a voluntary, non-profit organization established in 1952 and formally incorporated by Act of Parliament in 1972. It was initially established in 1952 as an arm of the Chartered Insurance Institute of England with the primary objective being the "professionalization of the local insurance industry."

In 1969 the TTII instituted a tuition service which provided training courses for students preparing for the CII examinations.

The Academy of Insurance grew out of this tuition service and in 1977 The Academy was established as a foundation of the TTII.

In 1999, due to changing industry circumstances and needs, the Academy was dissolved and the TTII assumed its functions.

The TTII is run by a Board of Governors and Council of Trustees and its functions are:

- ❖ to continuously inform members on insurance matters
- ❖ to create a greater personal involvement among its members
- ❖ to promote members' educational development through recognized and accredited study programs

EDUCATION

The TTII's mandate is to provide Education and Training for members, to set standards with respect to ethics, discipline and professional conduct and to be the authorized certification body for the Insurance and related Financial Service Sector in T & T.

MEMBERSHIP SUPPORT

The quality of the Council depends on the potential and ability of the officers selected.

By attending and casting your vote at the Annual General Meeting, by supporting the educational programs and social activities as well as providing feedback and suggestions on programs and functions, you assist the TTII in ensuring that members' services are constantly updated and kept relevant in these changing times.

By your active involvement in the TTII and commitment to self-betterment, you the member can reap the full benefit of the institute educationally, career-wise and socially.

MEMBER BENEFITS

The TTII remains the only recognized institution for the administration of State Licensing examinations and runs examinations and classes 3 times a year to accommodate the needs of the salesmen, agents and adjusters who are licensed annually.

The TTII also facilitates examinations for all internationally recognized insurance programs and qualifications. And has also partnered with the University of the West Indies to develop the BSc. Insurance and Risk Management degree, which provides individuals with the technical knowledge and management skills necessary to operate in today's insurance and wider business sector.

We believe that the TTII can make a significant contribution towards your efforts to attain professional academic qualifications, career growth and social interaction with other industry members.
